

# Tomato Field Day

**Location:** UGA Tifton Campus

**Date:** Wednesday, June 2, 2010

**Schedule:** 11:00 AM-noon Tifton Vegetable Park (TVP)

    Noon-1:00 PM Luncheon at new Blackshank Pavilion

    1:00 PM-2:00 PM Lang Farm tomato plots

The UGA Tomato Spotted Wilt - Thrips Management Team invites you to attend a tomato field day at the University of Georgia Tifton Campus to view the latest in research on the management of thrips-vectored viruses in tomato. The tour will begin at the front parking lot of the Tifton Campus Conference Center (see map below - 15 RDC Road, Tifton, GA). We will drive just north of there to the TVP to view tomato host plant resistance and TSWV management trials, drive to the Blackshank farm on Carpenter Road for a luncheon (Boar's Head sandwiches and condiments) and slide presentations, and end the tour at the Lang Farm tomato plots at the corner of Carpenter and Rigdon Roads. (Please RSVP Entomology at [igranber@uga.edu](mailto:igranber@uga.edu) for our luncheon head count)
